**Where Do Our Graduates Go?**

In the next year:

- 15.4% will be entering directly into Graduate School (PhD or Masters Programs).
- 19.8% will be entering directly into the health field through Medical, Dental or Veterinary School.
- 21.2% will be entering directly into Employment.
- 41.3% have other immediate plans, such as spending a gap year preparing to apply to various post-undergraduate programs or doing volunteer work.

~3.5% of graduates who completed the questionnaire indicated “Other” with no further information.

Some students who entered directly in the workforce may be doing so to fulfill a gap year before they attend graduate or medical school.

**77% of our graduates responded to our 2013 Senior Questionnaire**

Our graduates have a presence in healthcare, business, research, non-profit organizations and many other exciting fields around the world!
Our graduates go on to impact the world...
