**Subject:** Biological Sciences curriculum updates effective immediately...and important reminders  
**Date:** Monday, August 17, 2020 10:07:48 AM

---

Hello once again from the OUB!

As fall course enrollment nears (specific dates still TBD), please note these **important updates regarding two of the bio sci concentrations:**

#### [Human Nutrition](#)

- Students who are double majoring in Nutritional Sciences may not complete this concentration.

#### [Molecular and Cell Biology](#)

- Organic chemistry laboratory (i.e.: CHEM 2510 or CHEM 3010) is no longer required.
- The number of “additional credits” has been reduced from 7 to 6.
- Both changes apply to all current students.

#### Some key reminders to stay informed:

- Please complete [Re-Entry Checklist](#) (you **must** do this in order to resume your studies this fall, including enrolling in classes in a couple of weeks)
- The most up-to-date information about Cornell’s status continues to be at [Cornell’s COVID-19 website](#)
- The [Office of the University Registrar](#) will post updates regarding fall course enrollment (check back frequently for updates)
- Email from the OUB last week can be found on [our homepage](#)

#### Helpful links:

- [Contact or make an appointment with the OUB](#) (drop-ins will begin soon, information forthcoming)
- [Major Requirements](#)
